

# Rehman Naveed

## Software Engineer | Full Stack Web Developer

rehmannaveeddev@gmail.com • Rahim Yar Khan, Punjab, Pakistan  
rehmannaveed.com • linkedin.com/in/rehmanstackdev • github.com/rehmanstackdev

### PROFESSIONAL SUMMARY

Full Stack Web Developer with 3+ years of experience delivering production-ready web applications at scale. Completed 50+ projects across multiple domains using Laravel, MERN Stack, Next.js, and NestJS. Hands-on ownership from architecture, backend logic, and API design to frontend development and maintenance. Proficient in building scalable backends and responsive web applications with payment integrations, ai-powered real-time features, and cloud deployments.

### TECHNICAL SKILLS

HTML5 / CSS3	Advanced	JavaScript / TypeScript	Advanced
Tailwind CSS / Responsive Design	Advanced	MUI / ShadCN	Advanced
Mantine React	Advanced	React.js / Next.js	Advanced
Node.js / Express.js / NestJs	Advanced	Laravel / PHP	Advanced
MongoDB / MySQL / PostgreSQL	Advanced	Firebase / Supabase	Advanced
REST API / GraphQL	Advanced	Git / Version Control / CI-CD	Advanced
AWS / Vercel / Deployment	Advanced	AI Integration / OpenAI API	Advanced
Problem Solving	Strong	Team Collaboration	Strong

### WORK EXPERIENCE

- Full Stack Web Developer – Mercury Sols** ————— Dec 2024 – Present  
Rahim Yar Khan, Pakistan
  - Lead full-stack development for 40+ web applications using Laravel, MERN, Node.js, Next.js and NestJS.
  - Built AI-powered platforms, e-commerce solutions with Stripe payments, real-time features, and cloud deployments.
  - Designed RESTful APIs, managed databases (MySQL, MongoDB, PostgreSQL), and deployed applications on Vercel, Render and AWS.
  - Awarded the Rapid Learner Award during recent company anniversary for demonstrating exceptional adaptability, learning and problem-solving skills.
- Full Stack Web Developer – Art Complex** ————— May 2025 – Present  
Remote
  - Delivered 8+ web projects including the company's main website using Laravel, MERN, Next.js, and NestJS.
  - Improved UI quality and stability by fixing 100+ bugs and enhancing responsiveness, resulting in 60%+ improvement in usability.
- Software Engineer – Airbin** ————— Jul 2025 – Dec 2025  
Remote – Contract
  - Collaborated closely with co-founders and team to deliver scalable AI solutions for diverse users, both free and paid subscribers.
  - Contributed to building a powerful all-in-one AI workspace combining AI chat, image and video generation, and smart document tools in one seamless platform.
  - Integrated Stripe billing to enable flexible subscription plans, allowing users to unlock premium AI features seamlessly.
  - Enhanced core features and improved application performance to streamline productivity, creativity, and payments in a single intelligent platform.

● **Full Stack Web Developer Intern – Xpert Tech RYK** ————— Jan 2023 – Jun 2023

Rahim Yar Khan, Pakistan

- Completed intensive Full Stack Web Development training, building projects with Laravel, PHP, MySQL, HTML, CSS, and JavaScript.
- Gained hands-on experience in authentication systems, CRUD operations, REST APIs, and database design.
- Developed and successfully completed Final Year Project: Online Town Website, demonstrating full-stack development skills.
- Awarded the Shining Star Award for outstanding performance and dedication during the internship.

## KEY PROJECTS

● **CaterDirectly** ————— Mercury Sols – In Progress

Event Marketplace | React.js, NestJS, PostgreSQL, Socket.io, Stripe

[Website](#)

- Built a full-featured event services marketplace connecting hosts with vendors, featuring role-based access for Super Admin, Admin, Host, and Vendor.
- Integrated Stripe for secure payments, automated commission handling, scheduled vendor payouts, real-time chat, proposals, and vendor analytics.

● **Airbin** ————— Airbin – Completed

AI Workspace | React.js, NestJS, PostgreSQL, Redux Toolkit, Stripe

[Website](#)

- Built a powerful all-in-one AI workspace combining AI chat, image and video generation, and smart document tools in one seamless platform.
- Integrated Stripe billing for flexible subscription plans, enabling users to unlock premium AI features and streamline productivity and creativity.

● **Overlay Pix** ————— Mercury Sols – Completed

PWA | React.js, Node.js, Express.js, Firebase, Firestore

[Website](#)

- Developed a Progressive Web App for event organizers to create photo experiences with a guided 4-step wizard supporting 26+ event types and themed photo overlays.
- Implemented live gallery with likes/reactions, Stripe-powered payments with Apple Pay and Google Pay, tiered pricing plans, and a comprehensive admin dashboard.

● **FUNDEX CRM** ————— Mercury Sols – In Progress

Fundraising Platform | React.js, Node.js, Express.js, PostgreSQL, Shadcn

[Website](#)

- Built a data-driven fundraising platform connecting founders and fund managers with the right investors using curated investor intelligence and real-time outreach analytics.
- Implemented precision targeting, personalized onboarding, and expert-guided execution workflows to streamline capital raising efficiency and scalability.

● **Scoutcourt** ————— Personal Project – Completed

Sports Platform | Laravel, HTML5, CSS3, JavaScript, Tailwind CSS

[Website](#)

- Developed an online platform connecting sports scouts with talented athletes, enabling scouts to discover, evaluate, and manage potential players. Provided athletes a dedicated space to showcase their skills and build profiles, facilitating better talent discovery and recruitment.

● **Turbines, Inc.** ————— Mercury Sols – Completed

Corporate Website | Next.js, Tailwind CSS, AOS Animations

[Website](#)

- Designed and developed a high-performance, fully responsive corporate website for Turbines Incorporated serving industries like Oil & Gas, Aerospace, Pharmaceuticals, and Power Generation. Built with Next.js and Tailwind CSS featuring smooth AOS animations and responsive web design for optimal cross-device experience.

● **MeTime** ----- Mercury Sols – Completed

Surf Companion | React.js, Node.js, Express.js, MongoDB, Storm Glass API

[Website](#)

- Built a smart surfing companion web app that analyzes surf conditions and alerts users when waves match their skill level.
- Integrated Storm Glass API for real-time surf data, Google Calendar and Outlook Calendar APIs for smart personal scheduling.

● **Venbid** ----- Mercury Sols – Completed

Service Marketplace | React.js, NestJS, PostgreSQL, React Leaflet, Cloudinary

[Website](#)

- Developed a location-based service marketplace connecting customers with verified vendors for home services (Plumbing, HVAC, Electrical, Cleaning, Roofing) via interactive map. Implemented real-time chat, job posting with budget, government ID/business license verification, and an admin panel for vendor management.

● **Wepaak Shipment** ----- Mercury Sols – In Progress

Logistics Platform | React.js, Node.js, Express.js, PostgreSQL, Shopify

[Website](#)

- Built a full-stack shipping and logistics platform for the Mexican market enabling businesses to create shipments, compare carrier rates, track packages in real time, and manage wallets. Developed a Shopify embedded app allowing e-commerce merchants to manage shipping directly from their stores.

**EDUCATION**

● **Bachelor in Software Engineering** ----- Oct 2020 - Jun 2024

- Software Engineering graduate from IUB with a 3.71/4.00 CGPA. Strong foundation in software development with proven academic excellence.

**CERTIFICATES**

● **Basic IT Literacy** ----- Feb 2019 – Apr 2019

Punjab Vocational Training Council

● **Web Development** ----- Jul 2023 – Nov 2023

B.Tech Training Institute, Rahim Yar Khan

● **MERN Stack** ----- Jul 2024 – Sep 2024

Mercury Incubation Center, Rahim Yar Khan

● **Mobile Application Development** ----- Aug 2024 – Oct 2024

National Vocational and Technical Training Commission NAVTTC

**LANGUAGES**

Urdu ----- Native      English ----- C2 - Proficiency

Punjabi ----- Native
